Novelty (N)	Claims	1-30	YES
	Claims		NO
Inventive step (IS)	Claims	1-30	YES

2. Citations and explanations

The present application relates to the cosmetic use of phytosphingosine as a slimming agent, as well as cosmetic compositions containing phytosphingosine and at least one lipolytic agent.

Novelty (PCT Article 33(2)):

None of the documents cited in the preliminary search report describes the use of phytosphingosine as a slimming agent or relates to cosmetic compositions containing phytosphingosine and at least one lipolytic agent. It follows that the subject matter of claims 1 to 30 is novel.

Inventive step (PCT Article 33(3)):

In light of the documents mentioned in the search report, a person skilled in the art could not have suspected that phytosphingosine could be used as a slimming agent in a cosmetic composition. As a result, the subject matter of claims 1 to 30 involves an inventive step in relation to said prior art documents.
